Salary Costs

- Salary costs for MSU faculty and staff calculated using % or effort level (unless requested differently, e.g. “daily rate”).

- STTA (Short-term Technical Assistance) are normally doing work in the field; Salaries are based on a “daily rate”.

- Daily rates for MSU faculty and academic staff based on:
  - 188 days for AY appointments
  - 229 days for AN appointments

- Daily rates for MSU staff based on 260 days.
Daily Rate Memo Provided by OSP

CERTIFICATION OF WORK-DAY, WORK-WEEK, AND PAID ABSENCES

Solicitation:
Firm: Michigan State University
Section B.8

MSU faculty do not have a standard 8-hour per day/40-hour per week Work-Day or Work-Week. Therefore, faculty may work more or less hours each week. OMB Circular A-21 requires MSU to report faculty time on an after the fact “Level Effort” reporting system following the completion of each semester.

In this case, however, the following method is used for fixed price contracts requiring a fixed daily rate for faculty.

The unburdened Work-Year for Annual Year faculty appointments is 1,832 hours (229 days) which is equivalent to: 2,080 hours or 260 days – 22 vacation days – 9 holidays = 229 days.

The unburdened Work-Year for Academic Year (9 months) faculty appointments is 1,504 hours (188 days) which is equivalent to: 1,560 hours or 195 days – 7 holidays = 188 days.

The hours reflected above are provided for comparison purposes only. MSU does not maintain documentation of hours worked for its faculty and staff, with the exception of undergraduate students, but rather maintains documentation to support time expended on federal projects based on percentages of effort worked. This documentation is maintained in accordance with OMB Circular A-21, FAR 31.3.

Q: What is COLA?

COLA is designed to offset the higher overseas prices of non-housing goods and services. Overseas COLA is intended to equalize purchasing power so that expats can purchase the same level of goods and services overseas as they could if they were stationed in CONUS (Continental United States).

What is it?

Established in 1941, the primary goal of the Defense Base Act was to cover workers on military base outside the United States. Within time, the Act was amended and today, almost any contract with an agency of the U.S. government, for work outside the U.S., whether military in nature or not, will likely require Defense Base Act coverage.

DBA provides benefits in the event that civilian contractors are injured, killed, or kidnapped in the course of their work for US government agencies such as the various branches of the Department of Defense (DOD), U.S. Agency for International Development, (USAID), or the State Department.

Failure to obtain DBA insurance carries stiff penalties, and it may result in fines and possible loss of contract.

MSU’s DBA insurance carrier used is Rutherfoord at http://www.rutherford.com/

For the purpose of this budget 2% is used per applicable payroll cost.

Outbound International Travel

- Students participating in a MSU Study Abroad Program through the Office of Study Abroad (OSA) are automatically enrolled in HTH Worldwide Insurance. For additional information, review the OSA website at http://studyabroad.isp.msu.edu/studenthandbk/predeparture_health/health_insurance.html.

- For all other non-Office of Study Abroad individuals traveling on an approved MSU travel authorization, following are the required steps for departments to take in order to put coverage into effect: (1) complete a pre-trip travel authorization for each non-study abroad international traveler and (2) register the trip in the International Travelers Abroad Database at http://www.isp.msu.edu/travel/travelers_database.htm. The coverage for any one trip is limited to a maximum of 180 days.

- The HTH Worldwide insurance product for non-study abroad international travelers is called “GeoBlue Traveler”. For more information regarding the coverage, access the GeoBlue website at www.geo-blue.com and click on “Register” (the MSU Group Access Code is: QHGS999MSUBT). This step will enable travelers to print their ID card in advance, have access to the policy, review HTH’s large network of global medical providers, look at claim procedures and become familiar with the online and mobile tools available to them.

- If travelers would like to purchase separate travel coverage at their own expense for an accompanying spouse or dependents that are not traveling on an approved MSU travel authorization, they can obtain a quote through HTH Worldwide at www.hthtravelinsurance.com or by calling 1-888-243-2358.

Inbound Travel to the United States

- This coverage is available for a fee to all individuals traveling to the United States on an approved MSU travel authorization. To enroll participants, a University department must complete a roster and provide a university account number. Both need to be submitted to the Risk Management and Insurance Department via email to riskmgmt@msu.edu. Risk Management staff will facilitate the enrollment with HTH and provide an ID card to the department. The premium is $64.95 per calendar month. For more information regarding the coverage, please review the brochure.

If you have any questions regarding either the inbound or outbound coverage, contact the Risk Management and Insurance Department via email at riskmgmt@msu.edu or by phone at 517-355-5022 ext. 0.

Export Control and Trade Sanctions: An Overview

Loraine J. Hudson
Director of Research Facilitation and Dissemination
June 16, 2015
Presentation Overview

- What is an export?
- What are export controls?
- What are trade sanctions?
- What is EAR? ITAR? OFAC? FCPA?
- The MSU process – who, what, when, where and why?
What constitutes an export?

Any release of controlled technology, data, software or other item to a foreign national. Such release is deemed to be an export to the home country or countries of the foreign national, even if the person is currently residing in the United States. This rule does not apply to persons lawfully admitted for permanent residence in the United States. 

(Hint: A restaurant conversation that transfers controlled information to a foreign national constitutes an export.)
What are export controls?

Export controls are federal laws that regulate the export of:

- technology and data relating to **military applications** listed on the U.S. Munitions List (ITAR) – enforcement agency - **Department of State**
  

**AND**

- “**dual use**” technologies relating to items listed on the Commerce Control List (EAR) – enforcement agency – **Department of Commerce**
  
  https://www.bis.doc.gov/index.php/regulations/export-administration-regulations-ear
What are trade sanctions?

- The Office of Foreign Assets Control ("OFAC") of the U.S. Dept. of the Treasury enforces economic and trade sanctions based on foreign policy, economic and national security goals. OFAC blocks interaction with terrorists, international narcotics traffickers and weapons violators, among others, as well as denying dealings with certain foreign entities.

(Partial list of sanctioned countries: Balkans, Cuba, Iran, North Korea, Sudan, Syria, Zimbabwe)
Why is it important to be aware of these laws?

Violations of EC&TS can result in personal and institutional liability and criminal penalties:

• **individual** and/or **institutional** fines and/or
• **individual** incarceration
• Shows due diligence regarding compliance
Applicability

These laws apply to all research activities whether or not there is a specific citation to the regulations in the grant or contract award document governing the project, and whether or not the project is grant-funded.

These laws also apply to export-controlled information or technology shared with MSU by personnel outside the university (such as items or data shared via a material transfer or confidential disclosure agreement).
Licenses?

- In certain situations, the university may elect to apply for a license for export but:
  - They take time (months)
  - They can be expensive
  - They can be turned down
Fundamental Research

*Fundamental research* is basic or applied research at an accredited institution of higher learning in the U.S. where the resulting information is not restricted in the form or content of its release to the public and is ordinarily *published and shared broadly in the scientific community.*
Publication & Fundamental Research

The fundamental research exclusion does not in general extend to the for-profit sector (export controls sometimes flow down to a university as a subcontractor when the for-profit, as prime contractor, is required to accept the controls).

The fundamental research exclusion does not extend to research performed outside the University even if the research is fundamental at MSU.
So ... What does it all mean?

The Export Control and Open Research Review Worksheet (ECORRW) helps EC&TS determine whether or not a project is controlled, what publication or citizenship restrictions apply, what equipment is intended for use abroad, and what follow-up actions must be taken to comply with U.S. law and regulation and MSU policy.

Export Control Worksheet

• May be found at: http://forms.exportcontrols.msu.edu
• May be filled out at the proposal stage or the award stage.
• Helps ECTS determine the nature of the project, if it is controlled, what special conditions may apply to work abroad.
• Unit initiates the form, PI signs, dean/associate dean/chair signs (unit preference), forward to Office of Sponsored Projects.
• OSP signs on contract terms, forwards to ECTS for review and signature.
Some other thoughts

• Be cautious about faculty and staff travelling overseas with laptops (a “clean” laptop is best).

• Faculty must be aware of and comply with:
  • Rules for export of cash -
    https://help.cbp.gov/app/answers/detail/a_id/195/~/currency-%2F-monetary-instruments---amount-that-can-be-brought-into-or-leave-the
  • The Federal Corrupt Practices Act (FCPA) -
    http://www.justice.gov/criminal/fraud/fcpa/

• The FBI has published suggestions for safe overseas computing:  http://www.fbi.gov/about-us/investigate/counterintelligence/business-travel-brochure
• Federal regulations require sign-off for EC considerations on visa applications.
• Like the ECORRW, the Export Control Worksheet for MSU sponsored visas may be initiated and routed electronically. Please visit http://forms.exportcontrols.msu.edu to access the online form.

5. TERMINATION. Either the University or the Contractor may terminate its obligations under this Contract by giving the other party prior written notice of such termination, specifying the intended date of termination, provided, however, that upon request from the University, the Contractor shall continue performance until the University can find a replacement contractor or for an additional thirty (30) days after the specified termination date, whichever is the shorter time period. Upon termination, an equitable settlement shall be made for actual costs incurred by the Contractor up to the date of termination.

6. UNIVERSITY EMPLOYEES. The Contractor will not hire any employee of the University to perform any services covered by this agreement without prior written approval from the Office of the Provost for academic employees or from the Assistant Vice President for Human Resources for nonacademic employees.

8. ACKNOWLEDGMENT OF SPONSORSHIP. The Contractor agrees that in any publication acknowledgment shall be made of sponsorship by the University and/or other sponsor by use of the following statement: "This work was performed under the sponsorship of the Board of Trustees of Michigan State University and [insert any other sponsor]. This work does not necessarily reflect the views of the University or the sponsoring agency." If the publication is copyrighted, the statement, "Reproduction of this article, with the customary credit to the source, is permitted," shall be added. This is a Renewal  Yes ☐ No ☐

Michigan State University is an affirmative-action, equal-opportunity employer.
IMPREST ADVANCES

Imprest advances are issued for on-going research projects, generally for large dollar amounts, that must be sustained and replenished for the duration of the grant and/or project. Imprest advances should be a minimum of $20,000, and have a time span of at least four months. Chair or dean approval is required in order to issue an Imprest advance. Requests must also be routed to the Contract and Grant Administration office for their approval. The due date should be within 1-2 months after the end date of the grant.

While the project is ongoing, receipts are processed on a Disbursement Voucher (DV) using Payment Reason R – Replenish Open Ended Cash Advances. The Accounting Office will set up a SP vendor to be used for the advance (format: Cash Advance – Custodian Name). This will generate a check back to the advance holder (the DV can also be completed to send a wire).

When the project has concluded, receipts are processed on a Distribution of Income and Expense (DI) document. The account number in the “From” section of the DI should be XZ052171, and the object code should be 6173. The “To” section of the DI should contain the appropriate accounts and object codes to charge for the expenses. The DI document reduces the outstanding amount of the advance per the receipts (the total of the DI must match the total of the receipts). Any cash remaining should be taken to the Cashier’s Office and deposited against the open advance (the advance number is needed by the Cashier’s Office in order to properly credit the advance).

It is common for the advance holder to set up at least three bank accounts: a US bank account into which the MSU checks will be deposited; and two accounts in the country where business will be conducted (US currency and foreign currency). Funds are transferred from the US account to the foreign accounts by the advance holder as needed. All accounts should be set up in the name of the advance holder (not in MSU’s name), and be non-interest bearing.

NOTE: The IRS has reporting requirements for those that have signature authority on a foreign bank account. See Publication 4261 . There are also reporting requirements for the University if a foreign bank account is opened to conduct University business. Please notify the Financial & Cost Analysis department (email epowers@ctlr.msu.edu, or phone 355-5029) about any foreign accounts.
